AFTERBURNER BOOST

AFTERBURNER BOOST

**BOOST** is an Organic Plant Food and Soil Conditioner which improves soil structure and porosity, creating a better plant root environment.

**BOOST** provides humus that assists in soil aggregation.

**BOOST** increases moisture infiltration by reducing the bulk density of heavy soils.

**BOOST** improves the moisture holding capacity of light soils improving moisture retention.

**BOOST** Supplies Organic matter to the soil aiding in the proliferation of soil microorganisms.

**BOOST** encourages root growth.

**Directions for use:**

**IMPORTANT :** Wear gardening gloves when handling this product.

**Boost Your outdoor garden plots** by spreading 3 to 4 inches of **Boost** over the area then till or mix into top 2 to 6 inches of soil. Plant and care for seeds or plants according to seed package instructions.

**Boost Mix for Potted Plants:** mix one part **Boost** with two parts soil, fill pot about 1/3 full with mix, transplant root ball & plant, fill remaining pot area with mix, water and let drain.

**Boost Lawn Starter Mulch:** For new lawns prepare the soil surface and plant grass seed according to package instructions, spread a thin layer, about 1/2 inch, over seeded soil and water according to seed package instructions.

**Boost flower bed & plant mulch:** place a generous amount on surface around plants moisten the surface of the mulch with a fine spray mist of water. Keep surface moist with fine spray as needed.
